

Module 8

Tracking Asset Changes

1-Following Assets

في **Informatica EDC**، تقدر تعمل متابعة (**Follow**) لأصل (Asset) معين علشان:

تتابع أي تغييرات بتحصل عليه وتتبلغ بيها في شكل إشعارات (Notifications)

زي ما تتابع شخص على الانستا علشان توصلك تحديثاته، هنا بتتابع "جدول" أو "تقرير" أو أي Data Asset.

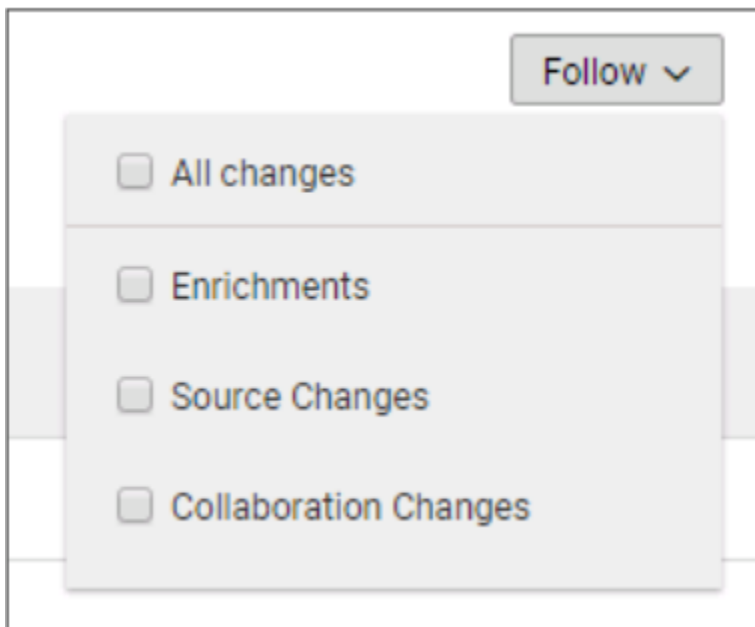

أنواع التغييرات اللي ممكن تتابعها:

نوع المتابعة	معناها إيه؟
All Changes	توصلك إشعارات بكل أنواع التغييرات اللي بتحصل على الأصل.
Enrichments	توصلك إشعارات لما حد يضيف أو يعدل بيانات وصفية زي الـ Business Terms أو Comments.
Asset Source Changes	توصلك إشعارات لو الأصل نفسه اتغير في المصدر (زي تعديل في قاعدة البيانات نفسها).
Asset Collaboration Changes	توصلك إشعارات عن الأنشطة التعاونية زي: تعليقات، مراجعات، إشارات (Mentions).

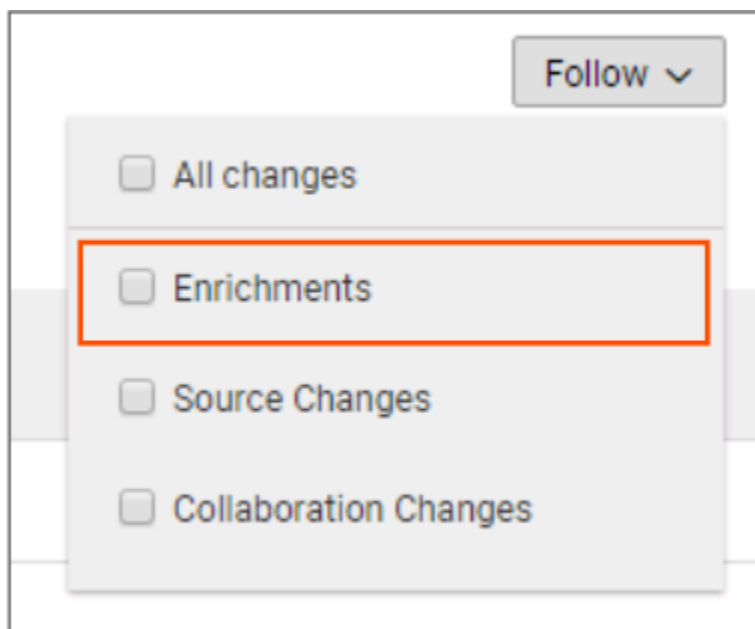

Important

There are no multiple options to follow a resource. You can either follow or unfollow.

بمعني في ال Resource مافيش انك تختار حاجات تعملها فولو و حاجات لا هو يتعمل فولو لل Resource كله وتشوف اللي بيحصل فيه من كل تغير او متعملش فولو خالص

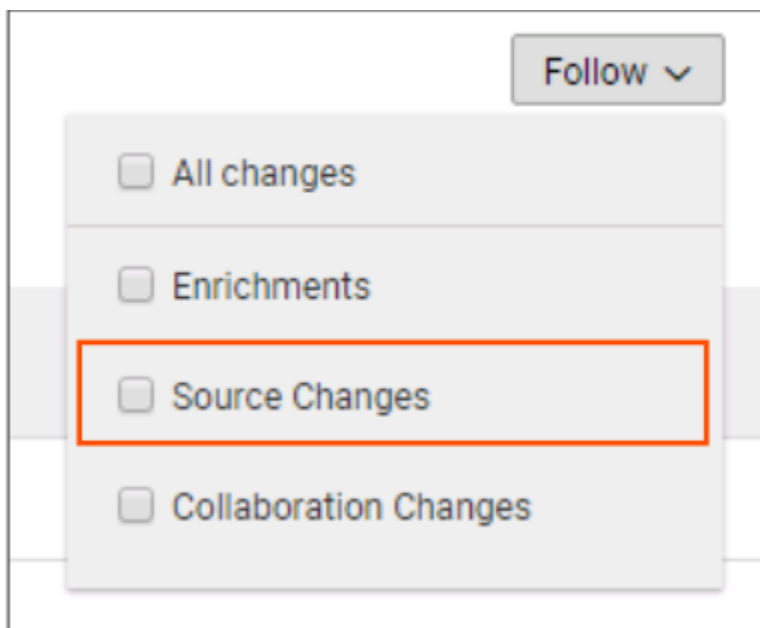

1-Follow Enrichment Changes

- Add or change a description
- Assign a business title
- Change data domain associations
- Add a new custom attribute
- Add or change the value of an attribute

لو عملت فولو وحددت نوعه انه يكون Enrichments اي تغيير من المذكوره سابقا دي لو حصل في ال Assets اللي انا عاملهم فولو هيجيلي نوتفكيشن بيهها

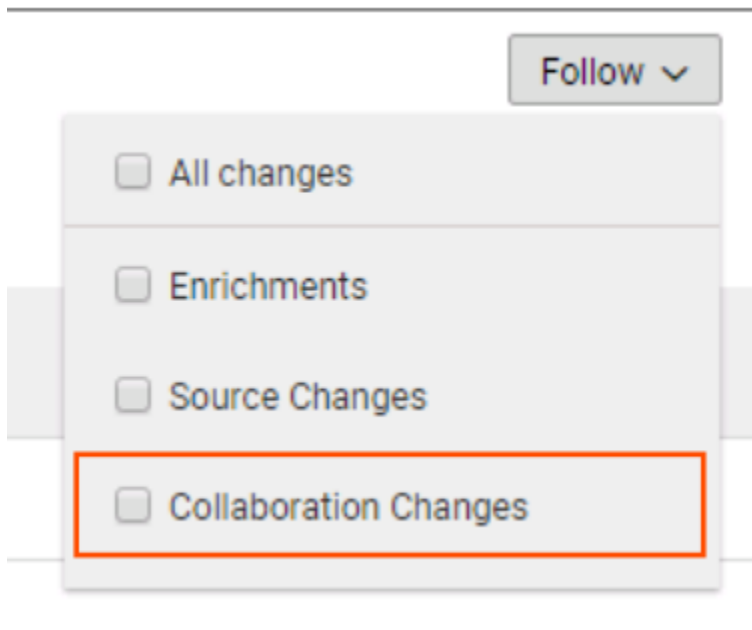

2- Follow Asset Source Changes

- Add, update, or delete a table column
- Change data in a column or row
- Modify a file
- Change in system attributes

لو عملت فولو وحددت نوعه انه يكون Source Changes اي تغيير من المذكوره سابقا دي لو حصل في ال Assets اللي انا عاملهم فولو هيجيلي نوتفكيشن بيها

3-Follow Asset Collaboration Changes

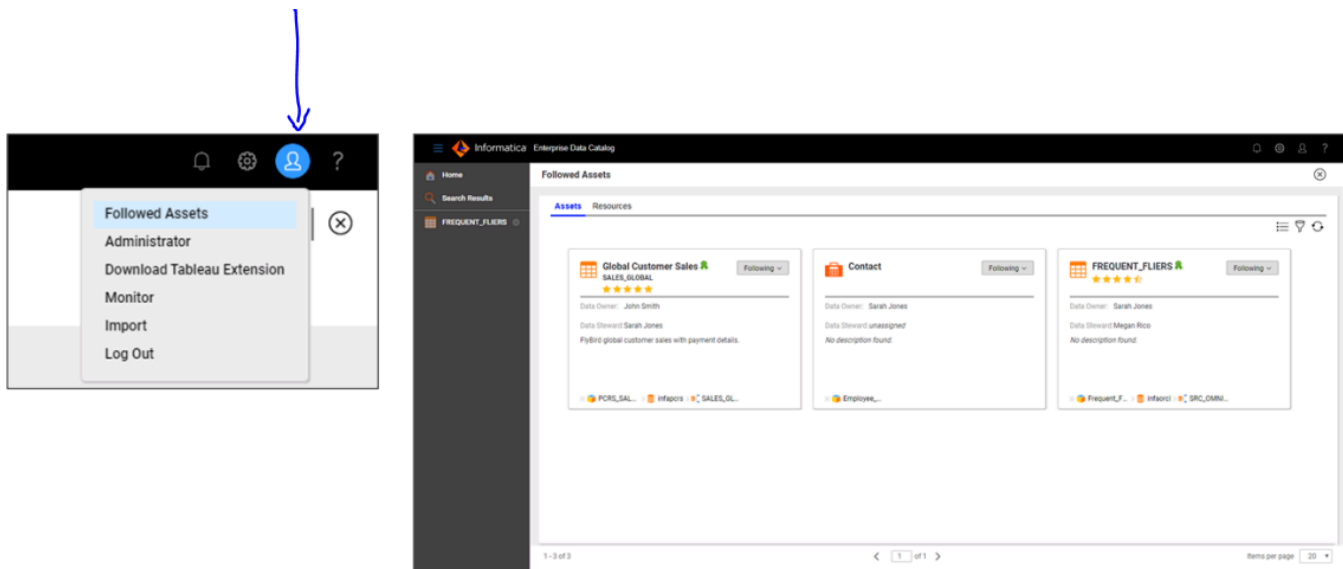

- Add a question for an asset
- Reply to a question for an asset
- Review an asset
- Rate an asset
- Certify an asset

و عملت فولو وحددت نوعه انه يكون Collaboration Changes اي تغيير من المذكوره سابقا دي لو حصل في ال Assets اللي انا عاملهم فولو هيجيلي نوتفكيشن بيها

2- List of Followed Assets

عشان اعرف ايه هيا ال assets and resources اللي انا متابعم

بختار من ال Menu Bar البروفايل بتاعي و بعدين اختار Followed Assets

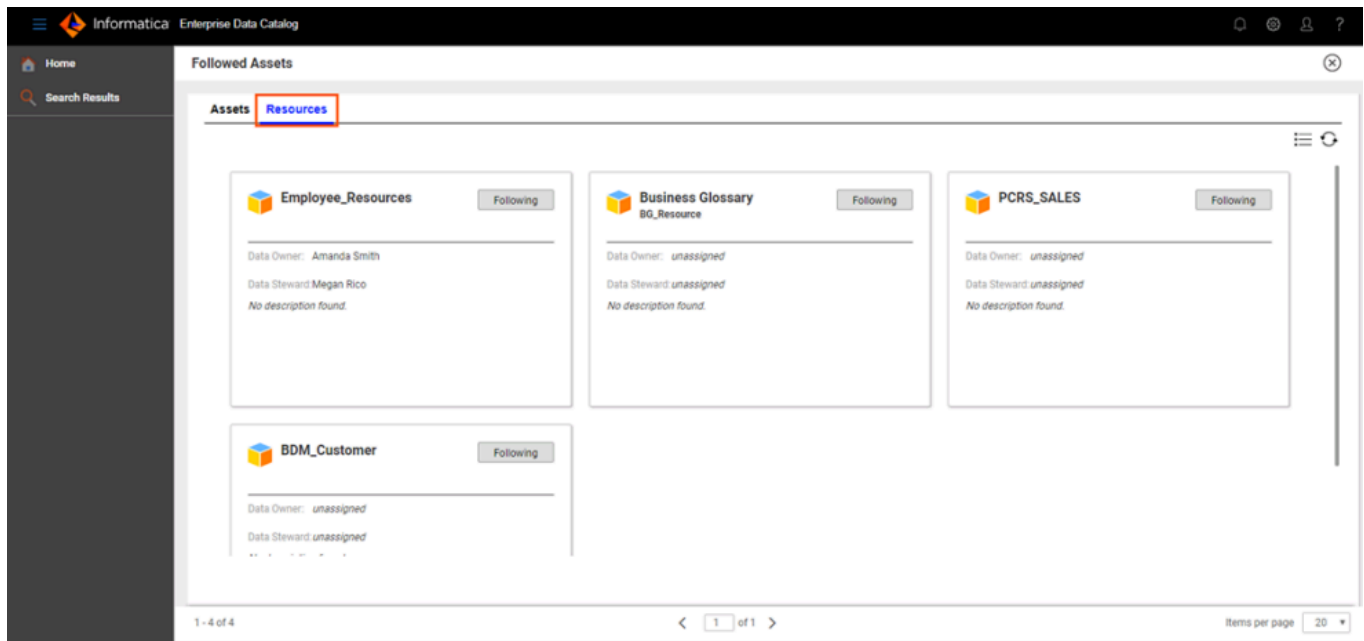

3- The Followed Assets Page – Assets

You can perform the following tasks in this page:

- Modify the “follow” options for the asset
- Open the asset
- Navigate to the source of the asset
- Toggle between List and Card view of assets
- Filter the assets
- Refresh the list

4- List of Followed Resources

In the Followed Assets page, click the Resources tab.

كده انتا بتتشفو ال Resource نفسه مش Assets

You can perform the following tasks in this page:

- Navigate to the resource
- Unfollow a followed resource
- Toggle between List and Card view of assets
- Refresh the list

5- Notifications

علشان تعرف إيه التغييرات اللي حصلت على (Assets) أو المصادر (Resources) اللي بتتابعها.

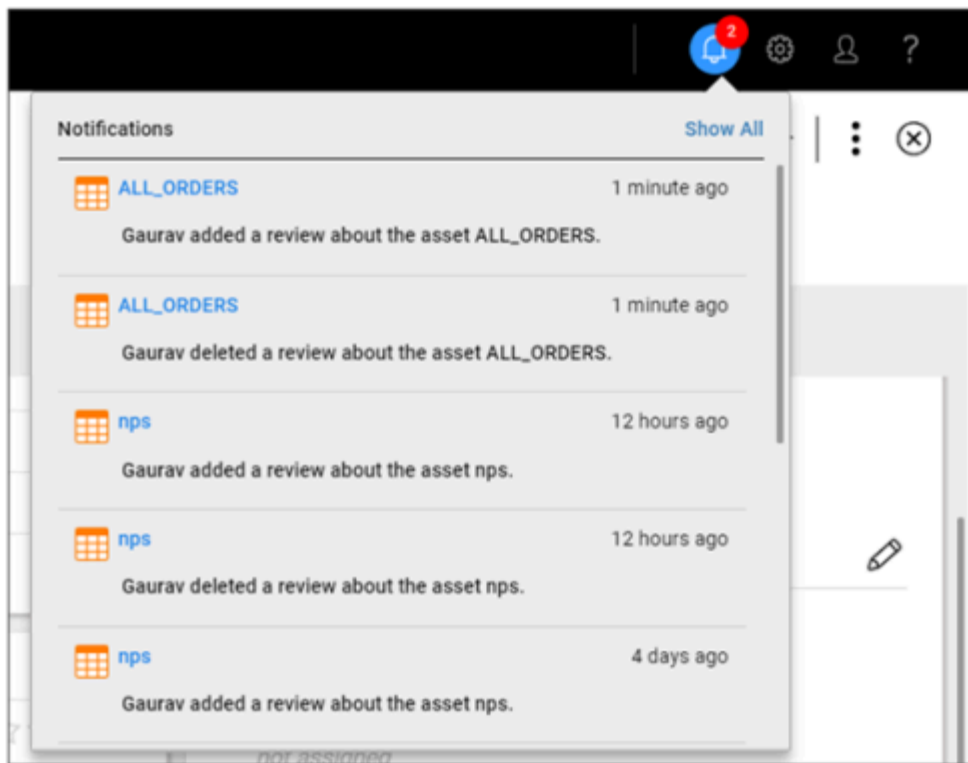

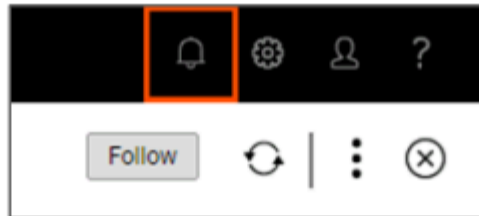

- **هيوصلك إشعار** لو حصل أي تغيير على أصل أنت متابعه.
- لو بتتابع **Resource** (زي قاعدة بيانات)، هيجيلك إشعارات عن **كل التغييرات** اللي بتحصل فيه وفي كل الحاجات اللي جواه.
- بيتم تفعيل المتابعة ليهم تلقائياً، **Subject Matter Experts (SMEs)** و **Data Owners, Data Stewards**، علشان يوصلهم التحديثات.
- بعد أول عملية مسح (**Scan**) للمصدر، بيبداً EDC يسجل ملخص التغييرات.

النوع	المعنى
In-App	إشعار بيظهرلك جوه EDC نفسه
Individual Email	إيميل بكل حدث تغير بيحصل
Digest Email	إيميل مجمّع بملخص التغييرات (يومي أو أسبوعي مثلاً)

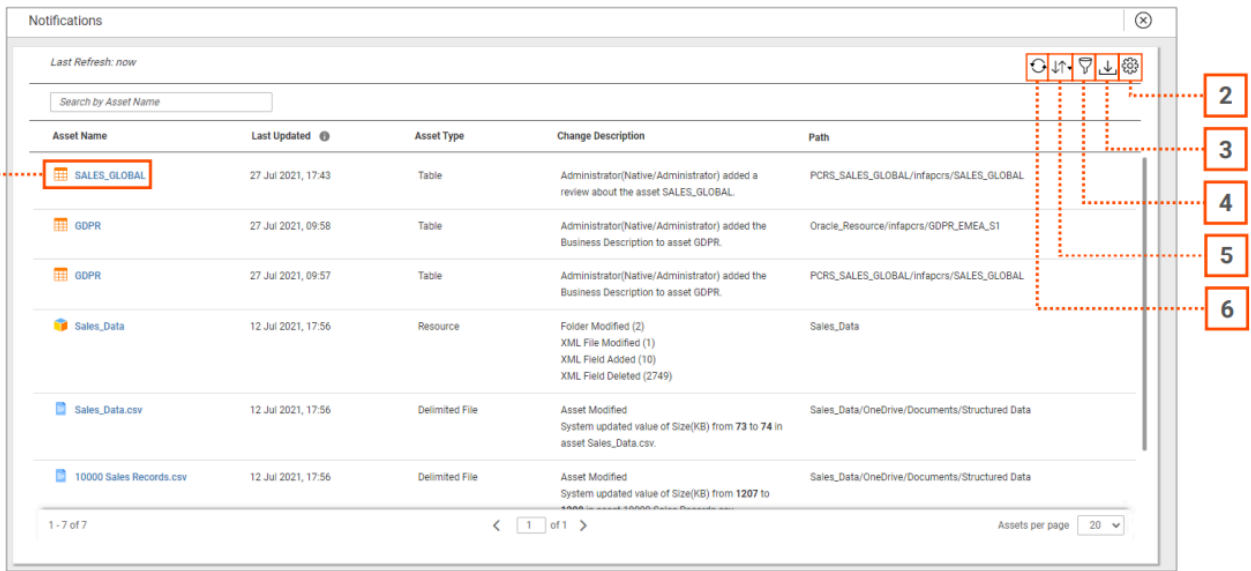

لما تتابع Assets أو مصدر، هيوصلك إشعارات بالتغييرات عليه، سواء داخل التطبيق أو على الإيميل.
وناس زي الـ Data Owners بيتسجلوا تلقائيًا علشان يوصلهم التحديثات تلقائيًا.

1- In-App Notification

- EDC has an alert (or notification) icon on its header.
- List shows asset that was changed, with a brief description on the change, and the time/date when it was changed.
- Click Show All to view all the notifications.

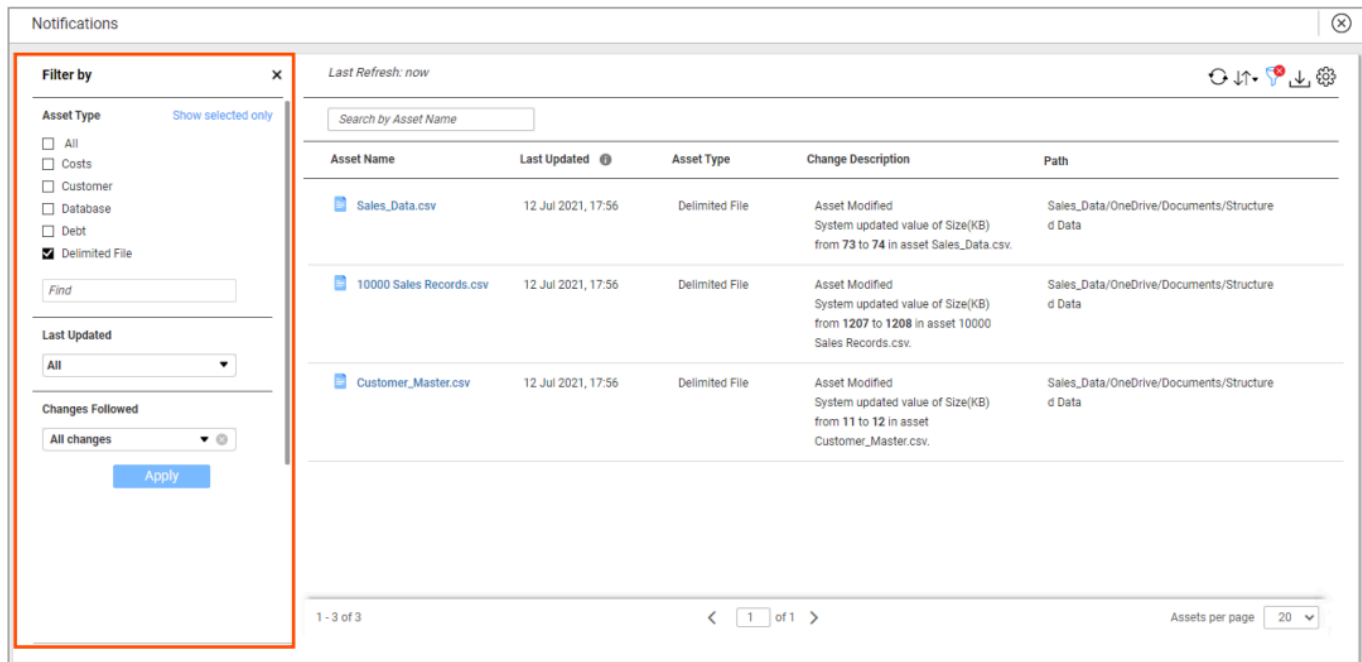

The Notifications Page

- 1 – Click on an asset name to open the corresponding asset.
- 2 – The Settings icon opens a window where you can configure the email notifications.
- 3 – The Download icon enables you to download the list into a CSV file.
- 4 – The Filter icon opens the filter panel which enables you to filter the notifications based on certain criteria.
- 5 – The Sort icon enables you to sort the list by an asset name or the last updated time.
- 6 – The Refresh icon refreshes the list of notifications.
